

CPSC 411 App Store Project 1, due Wednesday, 13 Mar 2019

Your name and company name: _____ Eric Le _____ Rickster_Software _____

Repository https://github.com/_leerichoang/ _____ / _____ Eggs _____

Verify each of the following items with a corresponding checkmark. Incorrect items will incur a 5% penalty on the grade.

Complete	Incomplete	App store project 1
x		Created an innovative idea for a simple, yet compelling app. As Apple puts it, your App should do something useful, unique, or provide some form of lasting entertainment.
x		Done market research on the 4 most popular apps that are most similar to your idea. 1. _____ http://www.raiden-x.net/ _____ 2. _____ Raiden Legacy _____ 3. _____ 1942 MOBILE _____ 4. _____ Arkanoid vs Space Invaders _____
x		Your app is better, faster, easier, cheaper, safer, or more fun than the apps listed above in at least three ways: (1) _____ Defending a home _____, (2) _____ Shooting upgrades self_____, (3) _____ Free _____,
x		Design documents (UI including View controllers, Tab bar controllers, Navigation bar controllers, widgets, frameworks), signed off on by instructor
x		Identified the MVP (the minimum viable product) that can be tested by users, and the first few versions of improvements. List the MVP and iterations here: MVP. _____ Just shoot eggs _____ v2. _____ Creating player _____ v3. _____ Adding Movement _____ v4. _____ Collision _____
x		Set up a Trello account w/ a project plan of tasks to be done, hours needed, & schedule
X		Using the programming techniques we have learned so far (chapters 1-15), have implemented the App so that it compiles and runs without runtime errors.
X		Invested at least 20 hours in your App. Apple says, "If your App looks like it was cobbled together in a few days, please brace yourself for rejection."
X		Chose and implemented the monetization strategy: none, in-app purchases, ads within the app, or premium versions that users must upgrade to for full app functionality
	X	App's UI uses space well, with constraints correctly set, on iPhones and iPads in landscape and in portrait mode. Do NOT restrict your App to run only in Portrait mode.

X		Met App Store's Safety, Performance, Business, Design, and Legal (data collection, use, sharing) requirements: https://developer.apple.com/app-store/review/guidelines
X		Published to App store: _EggsDefender_____ by: _Rickster Softwars__
X		Project directory pushed to new GitHub repository listed above using GitHub client.
Your comments	I had lots of trouble with my apple ID since I had attempted to use an older one. I spend about 2 hours trying to get into my old account until i decided to just make a new account. And so i submitted it later than the expected time of 11:59 pm Monday night.
